

Route 7/15 Norwalk Project

New Route 7/15 Norwalk Project Website Updates!

Greetings!

The 7/15 Norwalk Project Team hosted two virtual live Question and Answer (Q&A) sessions on November 30th and December 1st. The sessions focused on the current status of the alternatives review process, including the environmental documentation schedule and an update on the coordination process for cultural resources.

For those not able to participate in the sessions, we have posted to the project website the following materials from the sessions:

- A PDF of the presentation
- Videos of the meetings
- A meeting summary

You can access all the material at <http://7-15norwalk.com/materials.php>.

In the coming months, we will be releasing the environmental document for review. We plan to provide another project update in March/April.

Happy New Year!

The 7/15 Norwalk Project Team
